General Information

Journal references in Mathematical Reviews appear in the following form: *Rückschritte der Math.* (6) **5(56)** (1960/61), *no.* 2, 18–53 (1962), where, after the abbreviated title, one has: (series number) volume number(volume number in first series, if given) (nominal date), issue number if given, first page–last page (imprint date). If only one date is given, it is the nominal date and follows the volume number. If no volume number is given, the year is used in its place. The symbol ★ precedes the title of a book or other nonperiodical that is being reviewed as a whole. If an issue of a journal is to be reviewed as a whole (e.g., when it is a collection of articles dedicated to an individual) and an ad hoc title is devised for this purpose then this title appears in braces { }.

References to reviews in Mathematical Reviews before Volume 20 (1959) are by volume and page number (e.g., MR **15**, 122); from Volume 20 to Volume 58 (1979), by volume and review number (e.g., MR **20** #4185 or MR **23** #A513); from 1980 on, by issue and review number (e.g., MR 80a:46017). References to reviews in Jahrbuch über die Fortschritte der Mathematik and Zentralblatt für Mathematik are by volume and page number for the period before 1972 (e.g., Jbuch **50**, 173; Zbl **29**, 323) and by volume and review number since 1972 (e.g., Zbl 218:46017). Reviews reprinted from Applied Mechanics Reviews, Computing Reviews, Mathematics of Computation, Physics Abstracts, Referativnyi Zhurnal Matematika (Mekhanika, etc.), or Zentralblatt für Mathematik are identified by AMR, CR, MC, PA, RZhMat (RZhMekh, etc.), or Zbl, respectively, in parentheses following the reviewer's name.

Authors' names are given as listed in the item being reviewed. In order to identify each author uniquely, MR has assigned to certain authors' names an identifying form of the name. Superscript numbers are used in identifying forms where necessary. The identifying form is added in brackets following the published name.

Most review headings include institution codes. An institution code, indicating the author's address as listed in the reviewed item, consists of two [or three] parts separated by hyphens (e.g., 1-MR [or F-LYON-P]); these parts designate the country, the university or institution [and the department]. The absence of a department code usually indicates Department of Mathematics. Institution codes are also used to indicate the reviewer location for some reviewers. A list of codes appears in the most recent Annual Index of Mathematical Reviews.

Editorial Office: University of Michigan, Ann Arbor, Michigan. Editorial correspondence should be addressed to Mathematical Reviews, 416 Fourth St., PO Box 8604, Ann Arbor, Michigan 48107-8604, USA. Subscription information: Subscription prices for the year 1988 of Mathematical Reviews including the annual index are $3275 list, $2620 institutional member, $403 individual member ($453 outside the United States), $272 reviewer ($322 outside the United States). Nonindividual subscribers outside the United States and India must pay a postage surcharge of $60; nonindividual subscribers in India must pay a postage surcharge of $153. A late charge of $200 will be charged for orders received from nonmembers after January 1 of the subscription year. Combination paper and microfiche subscription prices are $4356 list, $3485 institutional member. Microfiche of each issue will be mailed the fastest way possible as each issue is published.

Back number information: Back number prices *per volume*: Volumes 1–12, $464 list, $371 institutional member; Volumes 13–44, $618 list, $494 institutional member; Volumes 45–58, $927 list, $742 institutional member. Back number prices for 1980 are $1957 list, $1566 institutional member; for 1981, $2266 list, $1813 institutional member; for 1982 or 1983, $2884 list, $2307 institutional member; for 1984, $3399 list, $2719 institutional member; for 1985, $4017 list, $3214 institutional member; for 1986, $4341 list, $3473 institutional member; for 1987, $4558 list, $3646 institutional member. Back volumes are available in microform from University Microfilms International, 300 North Zeeb Road, Ann Arbor, Michigan 48106-1346.

There are cumulative author indexes that cover 1940–59, 1960–64 and 1965–72, subject indexes for 1940–58 and 1959–72, and author and subject indexes for 1973–79 and 1980–84.

Orders should be addressed to the American Mathematical Society, PO Box 1571, Annex Station, Providence, RI 02901-9930. *All orders must be accompanied by payment.*

Mathematical Reviews (USPS 333-940) is published monthly plus, in December, an annual author and subject index issue, by the American Mathematical Society, 201 Charles St., Providence, RI 02904-2213. Second-class postage paid at Providence, RI, and additional mailing offices. Postmaster: Send address changes to Mathematical Reviews, PO Box 6248, Providence, RI 02940-6248.
